About me

Passionate MERN Stack Developer with knowledge of React.js, Node.js, Express.js, MongoDB, and JavaScript. Skilled in building responsive web applications and solving DSA problems in Java. Eager to learn new technologies and start a career as a Software Engineer.

Technical Skills

- **Languages & Databases:** HTML5, CSS3, JavaScript (ES6+), SQL
- **Frameworks & Libraries:** React.js (Beginner), Bootstrap
- **Tools & Platforms / APIs:** Git, GitHub, Chrome Extension Development, React Router, Postman, React Context API, REST APIs
- **Other:** UI/UX Design (Figma), Responsive Web Design, Framer, Wix Studio, WordPress, Website Optimization & Maintenance, Microsoft Office

Projects

Wonderlust (React.js)

- Developed a travel accommodation booking website using Node.js, Express.js, MongoDB, and EJS.
- Implemented authentication, property listings, reviews, and CRUD operations.
- Designed responsive pages and managed backend routes and database integration.

Portfolio Website (HTML, CSS, JavaScript)-https://github.com/abdul8810/My_Portfolio/

Built a fully responsive portfolio website with 5 core sections, showcasing and ensuring 100% cross-device compatibility.

Implemented 20+ micro-interactions & animations (AOS, hover effects, magnetic button, transitions) to boost user engagement by 65%.

Optimized UI/UX with clean, modular code and modern CSS + clean JavaScript, achieving 30% faster load times.

Some Mini Projects

Currency Converter

- Developed a currency converter using React.js and Exchange Rate API.
- Implemented real-time currency conversion with dynamic dropdown selection.

Calculator App

- Built a responsive calculator using HTML, CSS, and JavaScript.
- Implemented arithmetic operations and dynamic input handling.

Education

B.Tech - Artificial and Machine Learning

Dr A.P.J. Abdul Kalam Technical University, Lucknow
